Property Description

This southeastern Texas Panhandle farm is located in a rural area where residents, many of whose families have known each other for generations, enjoy a traditional, safe, small-town community environment. Located about 1-1/2 miles south of State Highway 86, the property is an excellent setting for a week-end retreat or more permanent rural living.

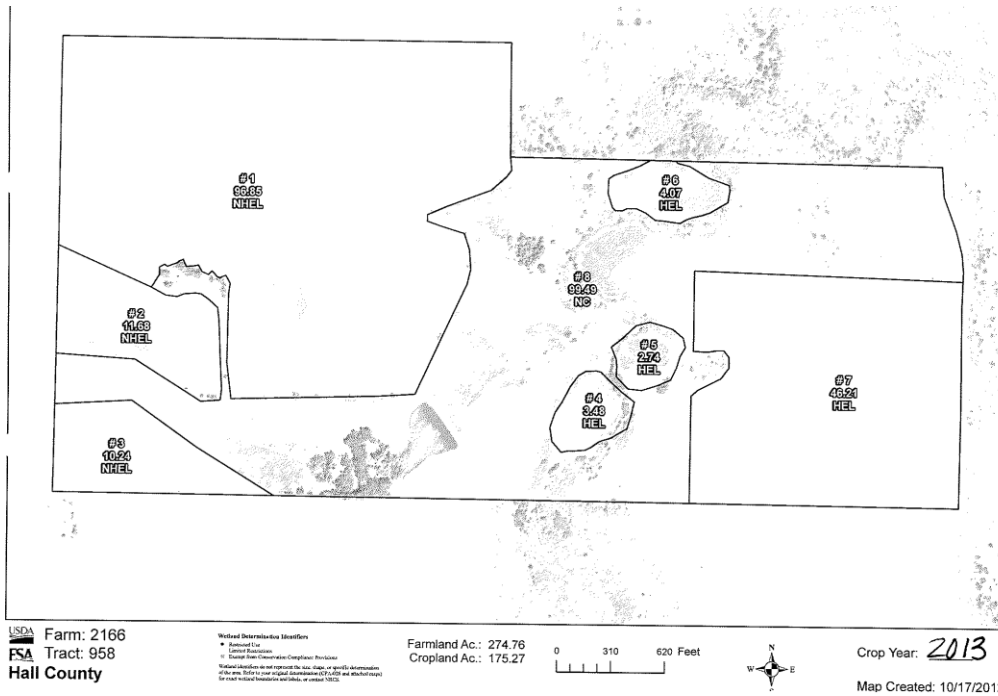

Approximately 278 acres in size, the farm contains approximately 175 acres of cropland (as classified by FSA), of which 160 acres is well-established B-Dahl grass. This provides above average grazing for livestock. Mountain creek crosses the southeastern portion of the farm, and is bounded on both sides by native grassland, trees and small brush. Wildlife, abundant throughout the area, includes quail, turkey, dove, and deer.

The property is fully developed for livestock production with excellent permanent fencing, water facilities supported by the Red River Water Authority of Texas, working corrals & handling facilities, and roadways throughout. Electricity is provided by AEP Texas North Company (formerly West Texas Utilities).

Government Programs

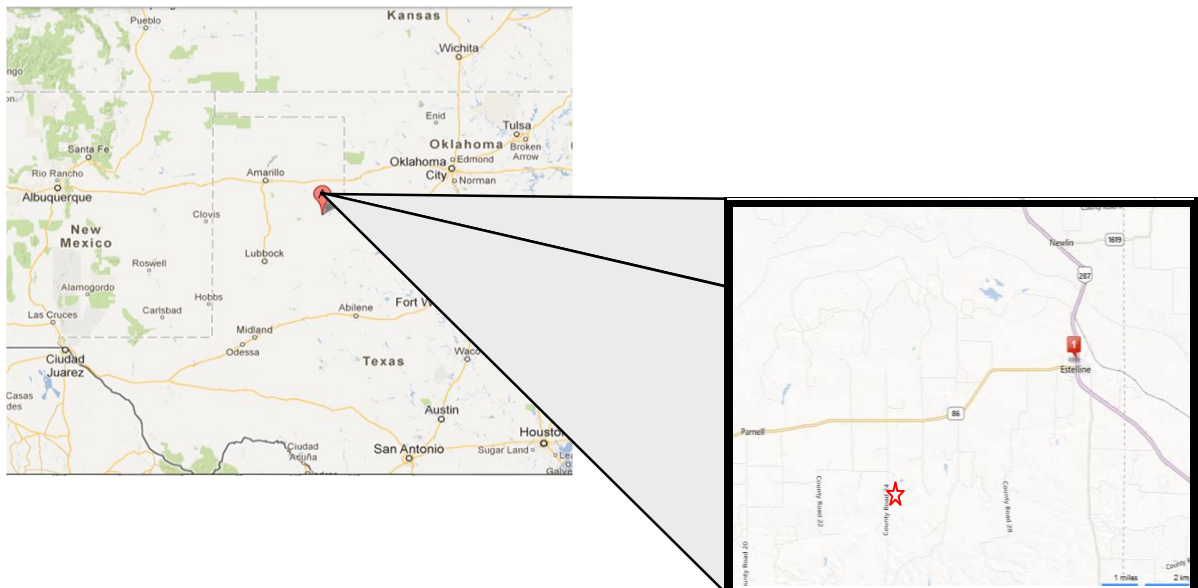

Government programs associated with the property are administered through the FSA office located in Memphis, Texas. The property is designated as Farm No. 2166, Tract 958. Base acreages are established for wheat, upland cotton, and grain sorghum.
